Guidance > Guess Work

Keep a close eye on who is doing what.

OUR TASK MANAGEMENT IS PERFECT FOR:

- Assigning work
- Tracking progress
- Viewing project status
- Managing issues

IMPROVE PROJECT QUALITY:

- Keep an eye on all work
- Identify resource bottlenecks
- Have an up-to-the-minute Issues Log available to everyone at all times

Deploy the tools you need to
Keep project activities on-track.

Ascendive's Project Delivery Platform is a Cloud based services solution that provides a comprehensive Task Management system.

Our **Task Management** solution allows all team participants to interact with the project activities without the need to access MS Project, they can:

- Be assigned activities directly from MS Project Plan
- Update their activities (work, durations, completions, etc.)
- Reassign activities to more appropriate project personnel
- Elevate an activity into an issue
- View project progress in Gantt charts and other views
- Flag activities and issues for upcoming meetings
- Create complete notes on work done

What this means for you:

You can create comprehensive plans in Microsoft Project using the Ascendive templates and then synchronize the activities so all team participants can interact with their work. All team participants can access all activities and issues all the time from anywhere and keep them up-to-date. Team participants can add new issues and activities at any time to guarantee that all work is being captured as it is identified.

Why Ascendive?

Ascendive provides a comprehensive suite of professional service productization solutions that enable service organizations to harvest their IP, productize it, and then reuse their IP as a competitive advantage.
