Deploy the tools you need to

Ensure consistent service delivery.

Ascendive's Project Delivery Platform is a Cloud based services solution that provides a comprehensive process management system.

Ascendive **Methods** allow Professional Service Organizations the capability to design, create, and deploy their best consulting practices:
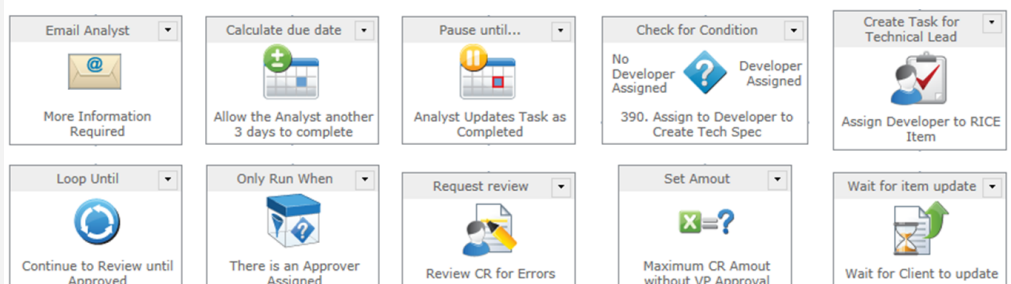

- Use a graphical interface to design your processes
- Incorporate e-mails, documents, alerts, etc. into your processes
- Use Methods for activities, documents, meetings, etc.
- Track user performance against process standards
- Receive automatic notifications when processes are not followed
- Refine and improve your processes over time
- Delegate notifications when you are not available

What this means for you:

Ever had a Change Order go to the customer before the proper internal reviews were completed and approved? You now have the capability to define your best practices and ensure that they are followed. You can incorporate your client's employees into your processes to enable complete team collaboration and effective control.

Why Ascendive?

Ascendive provides a comprehensive suite of professional service productization solutions that enable service organizations to harvest their IP, productize it, and then reuse their IP as a competitive advantage.
