

# Knowledge > Ignorance

*Leverage your training content into every project.*

## OUR TRAINING MANAGEMENT IS PERFECT FOR:

- Core Team Training
- End User Training
- New Product Training

## IMPROVE :

- Consistency of training
- Availability of materials
- Adoption of training
- Effectiveness of training

## Deploy the tools you need to *Impart the best of your knowledge.*

Ascendive's Project Delivery Platform is a Cloud based services solution that provides a comprehensive training delivery system.

Our **Training Management** solution gives all team participants the ability to engage in effective training and maximize the business application capabilities:

- Create class agendas, objectives, exercises, and logistics
- Setup key-stroke-by-key-stroke training exercises
- Embed User Productivity Kit (UPK) content
- Use web based technology for training remote users
- Monitor student exercise participation and fix issues
- Attach training documentation to classes
- Associate classes to testing scripts for refresher training
- Allow students to take satisfactions surveys online

## What this means for you:

You will be able to create your training content once, store it in a central location and have it automatically deployed on each project. As your training collateral increases, it will always be available to all consultants and all project participants. Training classes can be used for Core Team members, End Users, new product introductions or refresher classes.

## Why Ascendive?

Ascendive provides a comprehensive suite of professional service productization solutions that enable service organizations to harvest their IP, productize it, and then reuse their IP as a competitive advantage.
